MOSAiC Web benefits

The benefits of MOSAiC Web are…

- You can continue to update your records on your desktop pc / laptop without the need for the internet.
- Your data is safe on your desktop pc / laptop with you retaining the Master copy of the data locally.
- You can upload your collection to MOSAiC Web as often as desired.
- There is no maximum to the amount of data you can upload.
- You choose which Item records can be viewed by the Public. (All Subject and Library records can be viewed)
- You choose when to upload your images to minimise unnecessary network traffic.
- You tell us when you are ready for your collection to be listed on MOSAiC Web for wider exposure.
- Keep your Internet allowance costs to a minimum by only uploading when necessary.
- The web search page is easy to use and automatically shows the associations between records, providing the researcher with enticing links to more information.
- The web search can scan Items and/or Subjects and/or Reference material simultaneously.
- You can use MOSAiC Web as an online exhibition changing the records viewed whenever you wish.
- One small annual cost.

IST Information Services & Technology

What is MOSAiC Web?

MOSAiC Web is an online storage and search system where you can store your collection data and anyone can search the collection via an easy-to-use interface.

Your collection is stored on IST's **MOSAiC Web** server, so you have no storage worries. The amount of data you can store is not limited, nor do you pay more for having a larger collection or more images etc.

The search mechanism is easy to use and standard across all **MOSAiC Web** collections, so the public can search without instruction. Making the collection accessible is easy too. IST will place links to your collection on our web site (unless you request otherwise) and you can add links to the collection on any web site you wish. This is especially useful if you already have a web site. Simply add a direct connection to your **MOSAiC Web** collection, or to the IST page that lists all the collections.

If you wish to have your collection available on the internet, but accessed only privately by your staff / members, simply advise IST and we will not publicise the collection. Advise your staff / members of the web address and they will be able to access the collection directly.

Wrapped around your collection are your own logo and several web pages providing information about your organisation and your collection. These "Wrap-Around" web pages are fully under your control. You will be provided with login credentials and you use these to administer your collection and wrap-around information. A professional CMS (Content Management System) is provided for you to do your administration, via an easy-to-use interface. You do not need to be a web expert to do your admin, although the scope is there for knowledgeable users to be clever with their wrap-around web pages.
